A	Warm Up	duration
1	Can you tell me something about yourself?	

B	Main topic	duration
1	In your opinion, do Floating Cities represent a desirable way of life in the future against the background of global climate change? Please justify your answer.	
2	Do you think a Floating City is more environmentally friendly than a city on land?	
3	Do you feel more, less or equal safe living in a Floating City instead on land? What are the reasons?	
4	Would you say, that you live in a segregated area, a gated community or that specific population groups are excluded?	
5	Were the purchase prices of housing on land higher, lower or equal than on the water?	
6	How are your investments insured? Are they insured?	
7	In your opinion, will the local population benefit from a Floating City?	
8	Are there different rules you have to follow than on land?	
9	Where do you see the future of the Floating City?	
10	Do you think it is generally better to live in a Floating City or on land and why?	

C	Diploma	duration
1	Are there some companies / people you see as innovators in the field of Floating Cities?	
2	Is there anything you would like to add?	
	total duration	

Thank you very much for your participation!
